

## Bamboo Fence Technical Data

Bamboo panels can be used for fencing, privacy screens for your deck or any other decorative purpose where a tropical theme is needed. Each fence is selected and made from the most durable cane available. Our Bamboo fence is constructed using only Tonkin bamboo, which has gone through rigorous quality control methods. Each panel is connected through a series of galvanized steel wire and capped on top for finished look. Each fence comes individually bagged, ready to be framed or hung.

**Available Heights:** 4', 6', 8'

**Roll Length:** 8'

**Bamboo Diameters:** 5/8", 3/4", 1", 2"

Bamboo poles are threaded together with galvanized steel 12 gauge wires to form a flexible 8 foot panel.
