### LEED Certification

Based on the LEED 2009 v3 standard for New Construction and Major Renovations –

- Jerith Aluminum Fences are constructed from aluminum extrusions with a recycled content of at least 78% by weight. Post-consumer scrap is a minimum of 17% of the content and pre-consumer scrap constitutes a minimum of 61% of the material. This meets the Materials and Resources (MR) Credit 4: Recycled Content of 20% minimum (post-consumer + ½ pre-consumer) requirements. Using this formula, the total combined Recycled Content of our aluminum is 47.5%.
- Jerith Patriot Ornamental Wire Fence also meets the recycling standards set by MR Credit 4. The recycled content of these fences is at least 88% by weight. Post-consumer scrap represents 47% of the content by weight, and pre-consumer scrap accounts for 41.5%. Using the Recycled Content formula yields a total of 67.75% recycled content.

This should allow any project using Jerith products to be eligible for 2 points in the MR Credit 4: Recycled Content category.

If further information is needed regarding LEED, please call our Customer Service Department at 800-344-2242 or email them at [cs@jerith.com](mailto:cs@jerith.com).

Thank you,

A handwritten signature in black ink that reads "Bruce H. Schwartz". The signature is fluid and cursive, with a large loop at the end of the "z".
